What is Midjourney AI?

Midjourney is a tool that generates images using artificial intelligence and machine learning. The tool generates graphics based on the text entered by the user, which can be both surreal and photorealistic.

Midjourney is an independent research laboratory that explores new ways of thinking and develops the imagination of the human species.

Midjourney stands out as one of the most favored tools for transforming textual descriptions into AI-generated artwork. While it adds an enjoyable touch to creative endeavors, an emerging question lingers – can one monetize the images produced using Midjourney? In this article, we'll elucidate whether Midjourney images can be utilized for commercial purposes, identify potential avenues for selling AI creations, and outline essential considerations before embarking on such ventures.

Does Midjourney permit users to market their artwork?

In principle, there should be no obstacle to selling AI-generated art, as platforms like Midjourney serve as facilitators for artistic creation, with the final output being a reflection of the user's input. Nonetheless, the feasibility of selling your creations depends on the nature of the art and the platform employed for its creation. In the context of Midjourney, users are granted the liberty to leverage their creations for profit, provided that these artworks were conceived using a paid Midjourney account. Conversely, individuals utilizing the free version of Midjourney are not authorized to commercialize their AI-generated art, in accordance with Midjourney's terms of service, which do not grant commercial licensing to such images.

Can you use Midjourney images commercially?

You can use images created on Midjourney for commercial purposes, provided that you create them as a paid member of the platform. Subscribing to Midjourney's Basic, Standard, or Pro plans grants you a commercial license for all the images you generate.

Free users are granted a Creative Commons Noncommercial 4.0 (CC BY-NC 4.0) Attribution International License, allowing them to use the generated images for personal and non-commercial purposes, but they do not own them. This license permits copying, remixing, and redistributing the images, as long as you clearly indicate the license type and provide appropriate attribution.

If you create AI art using any of Midjourney's paid plans, you are free to sell them. If you or your company generates more than \$1,000,000 in gross revenue annually, you are obligated to purchase the "Pro" plan to avoid sharing profits with Midjourney.

Best Ways To Earn Money with Midjourney:

We have several options when it comes to generating income from Artificial Intelligence.

1. Sell Digital Files.

First, we can create digital files that we can sell on various platforms. However, in order for them to gain more value, they should preferably be packed in larger sets, preferably from 10 to 100 or more. By which we increase the value of the product.

Best Platform for selling digital files :

1. Etsy. [etsy.com](https://www.etsy.com)
2. Creative Marker [creativemarket.com](https://www.creativemarket.com)
3. Design Cuts [designcuts.com](https://www.designcuts.com)
3. Creative Fabrica [creativefabrica.com](https://www.creativefabrica.com)
4. Envato Market [themeforest.net](https://www.themeforest.net)
5. Design Bundles [designbundles.net](https://www.designbundles.net)
6. Adobe Stock stock.adobe.com

2. Sell clothes or accessories with AI Graphics with Print On Demand Platforms.

Secondly, we have the ability to put on clothes and various accessories. Using print-on-demand platforms.

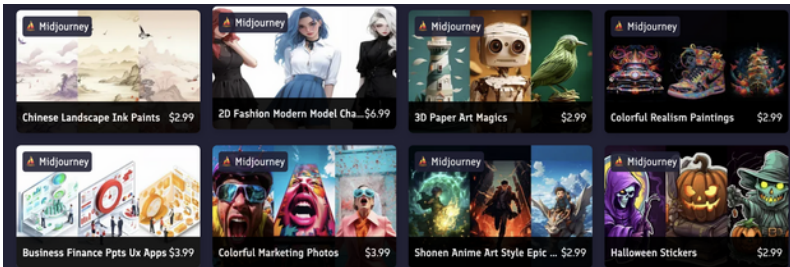

Best Platform for POD:

1. Amazon KDP kdp.amazon.com
2. Amazon Merch merch.amazon.com
3. Etsy with Printful or Printyfy [etsy.com](https://www.etsy.com)
4. Redbubble [redbubble.com](https://www.redbubble.com)
5. Teepublic [teepublic.com](https://www.teepublic.com)
6. Zazzle [zazzle.com](https://www.zazzle.com)
7. Own a merch shop with [Printful](https://www.printful.com) or [Printyfy](https://www.printyfy.com)

3. Sell Prompts For Midjourney .

There is a new way of earning by selling prompts (lines of text) that are used to generate images with Midjourney.

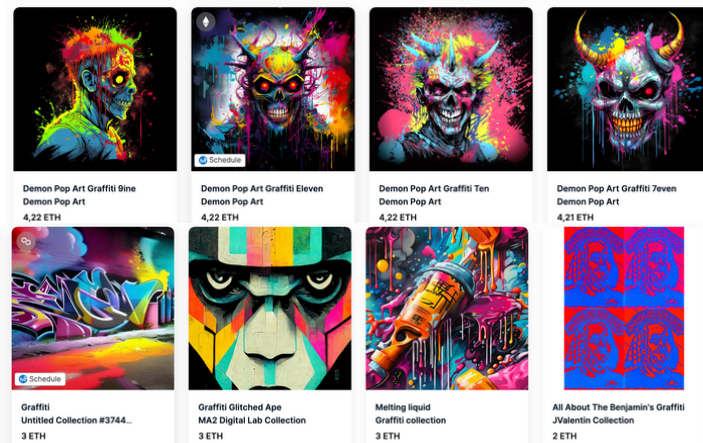

1. **PromptBase** promptbase.com
2. **Etsy** etsy.com
3. **Promptrr** promptrr.io
4. **Promptsea** promptsea.io

3. Create and sell your own NFTs.

An NFT, or Non-Fungible Token, is a digital token built on blockchain technology that represents a unique digital item, artwork, or content in the digital space.

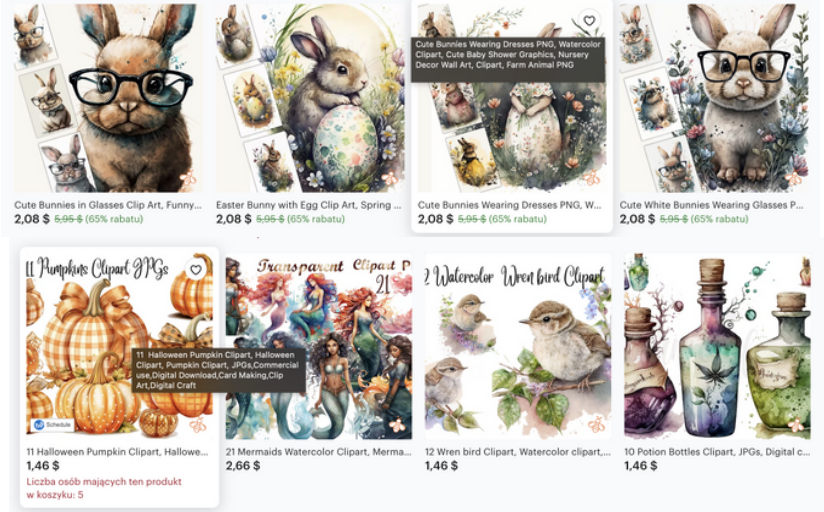

1. **OpenSea** opensea.io
2. **Rarible** rarible.com
3. **Superrare** uperrare.com
4. **Foundation** foundation.app

Digital File

- Clip Art

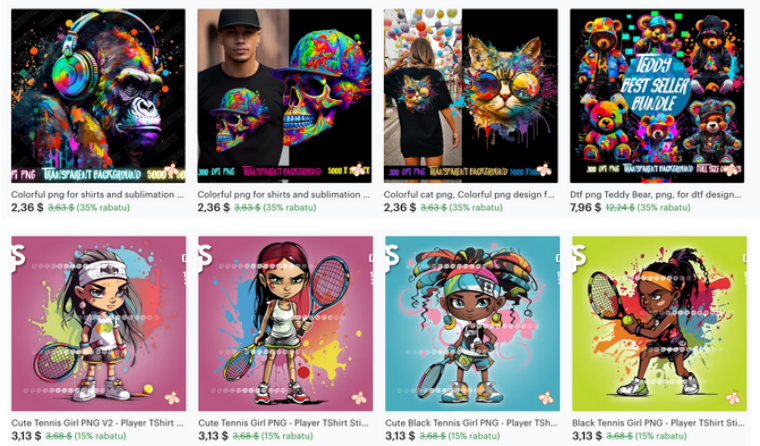

JPG White Background File minimum 300 DPI

PNG File - Transparent Background minimum 300 DPI

*it is possible to remove the background in various applications, websites, or programs such as PS, Canva, etc

<https://www.photopea.com/>
(Free Alternative to Photoshop)

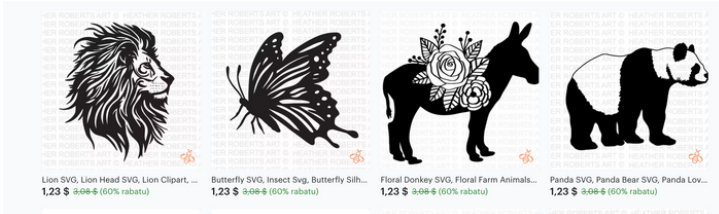

- Vector File (SVG, AI , EPS)

Possible transfer of Rast files to vector files, thanks to various applications

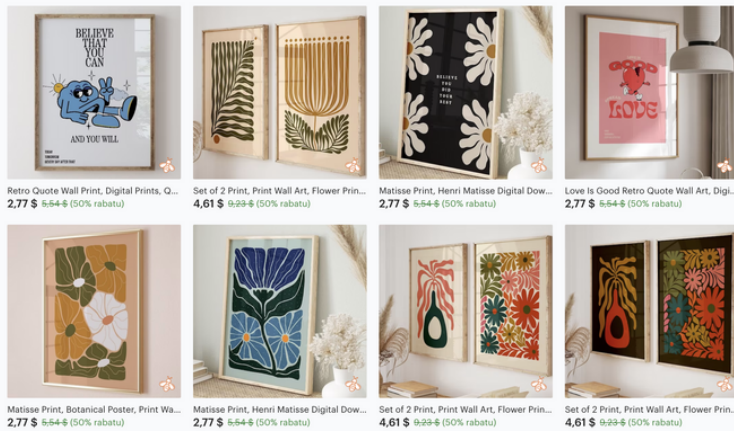

<https://vectorizer.ai/>

Free Ai too Transfser file From Rasta File to Vector File.

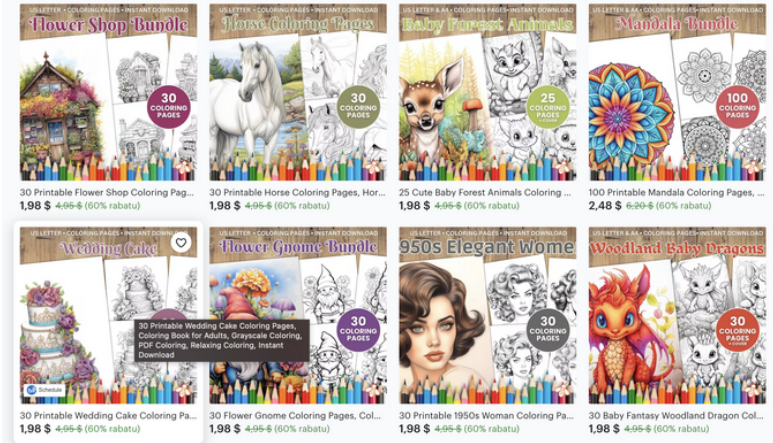

Digital Wall Art

They are for digital files that you can print at home and within minutes after purchase you can enjoy a work of art that you will hang on your wall.

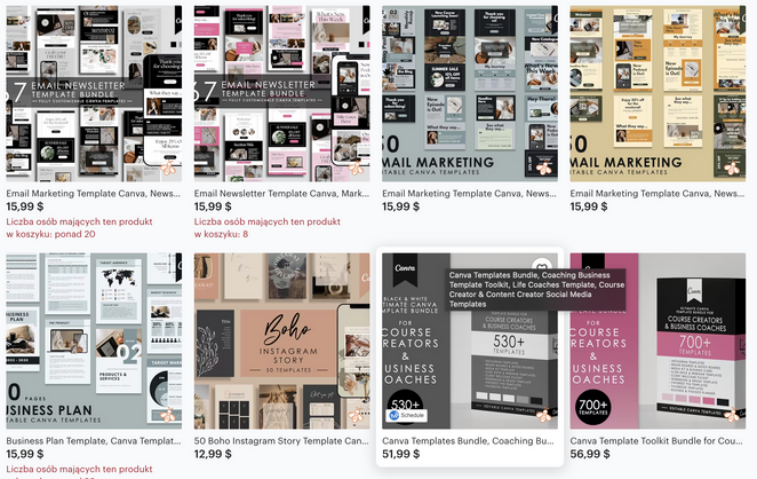

Digital Coloring Page

These are coloring books for children and adults that you print yourself at home.

Canva Template

These are ready-made templates for a very popular program in the browser for creating graphics.

PNG Alphabets

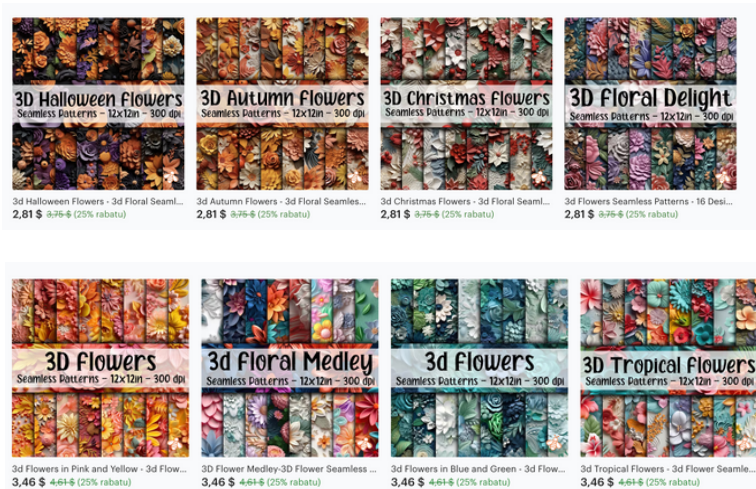

It is a collection of letters, Alphabet A to Z, saved in PNG, no background.

Seamless Patterns

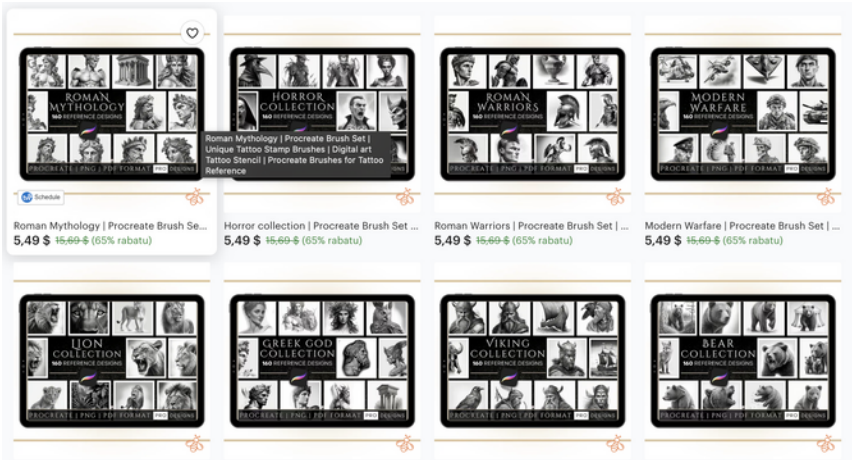

These are never-ending patterns, seamless, and perfect for fabrics and clothes. To create them, just add

--tile- at the end of the AI prompt

Tattoo Designs

There is a themed collection of different tattoo designs that can be saved as PDF Files, PNG Files, or Stamp Brushes for procreate or other graphical platforms.

Mock Ups

Digital mock-ups are virtual representations of projects, created using graphic software, to showcase the appearance and functions of the final product. They serve as an effective means of communication between designers and stakeholders, enabling rapid iteration and issue identification before actual implementation. They accurately depict layout, aesthetics, and interactions, expediting the design process.

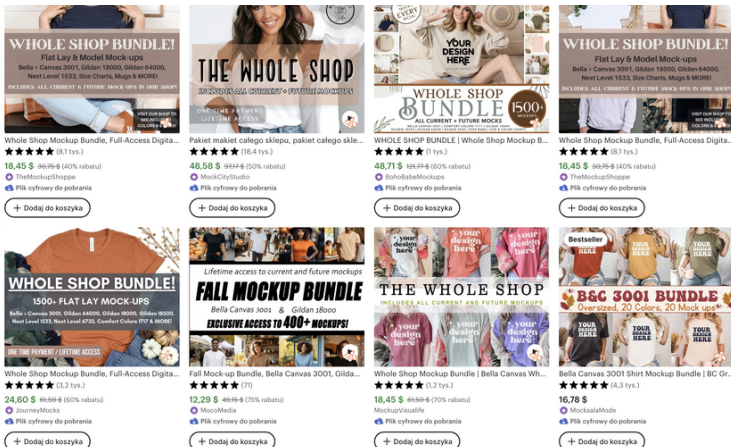

Photo Stocks

Photo Stocks are online platforms where users can upload and sell photos and graphics for commercial purposes. These platforms allow photographers, graphic designers, and other content creators to share their work with customers who can purchase and use it in various projects, such as advertisements, websites, printed materials, and more.

Custom Graphics on Fiver Service

Creation of Graphics for individual clients by freelancers' websites like [Fiver](#) or [Up-Work](#)

I will create stunning concept art for you using midjourney ai or stable diffusion

Teepublic

Teepublic is an online commerce platform specializing in creating and selling products with prints, including t-shirts, hoodies, mugs, posters, and other items.

Own Shop on Printfull or Printyfy

You can also create your own shop. With your own domain. And sell all sorts of products with my own imprint created by AI. The most popular sales platforms are **Printfull and Printyfy**. The biggest advantage of operating in this model is that the goods are printed on demand after purchase. So we don't worry about stock levels and overproduction.

How to start using Midjourney?

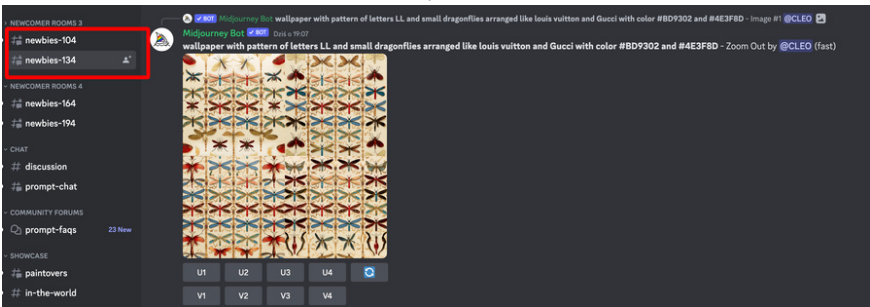

Step 1: Make sure you have a Discord login. Midjourney works entirely on Discord, so you'll need an account there to use it. Signing up for Discord is also free if you haven't done it yet.

Step 2: Visit the Midjourney website. Here, choose Join the beta. This will automatically take you to a Discord invite.

Step 3: Accept the Discord invite to Midjourney. Choose to Continue to Discord

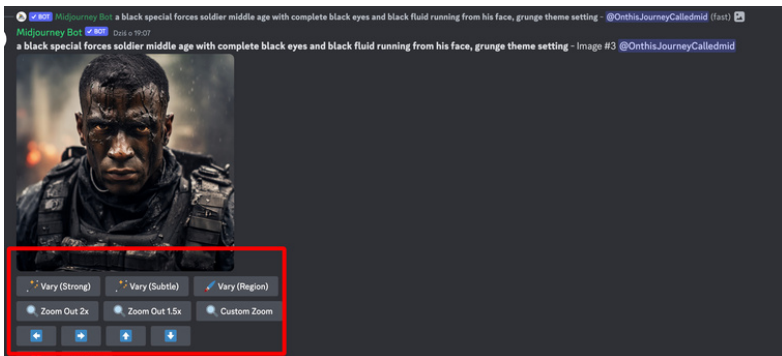

Step 4: Your Discord app will not automatically open. When it does, select the ship-like Midjourney icon on the left menu.

Step 5: In the Midjourney channels, locate the Newcomer rooms. There will typically be a number of newcomer rooms open, with names like "newbies-104 or 134." You can select any of these to begin.

Step 6: Now you're ready to begin creating AI art. Before you get started, note that you only have a certain number of prompt options available as part of your free trial. You can create around 25 free images. After that, you'll have to purchase a full membership to continue. If you would rather not spend any money, it's a good idea to take some time and think about just what you want to create on Midjourney. If you want, you can type "/help" to get a list of tips to peruse.

Step 7: When ready, type "/imagine" in the Discord chat for your newbie's room. This will create a prompt field where you can type the image description. The more precise that you can be with your description, the better the AI will be able to produce good results. Be descriptive, and if there's a particular style that you are looking for, include it in your description. There are terms of conduct to follow here, but if you keep things clean, you shouldn't have anything to worry about.

Step 8: Give Midjourney a minute to generate your images. Typically, the AI will create several different versions based on your description. You now have a number of options to continue.

Look below the images, and you'll see a section of U and V buttons labeled 1 through 4. The numbers correspond to the four images that Midjourney produced. Choosing U will upscale that particular image into a larger, more defined version. Choosing V will create an all-new image based on the present image that you choose. You will also see a refresh button to the side to request a new set of images. Keep in mind that each of these choices will use up some of your available free prompts, so only do it if you are sure you want to proceed.

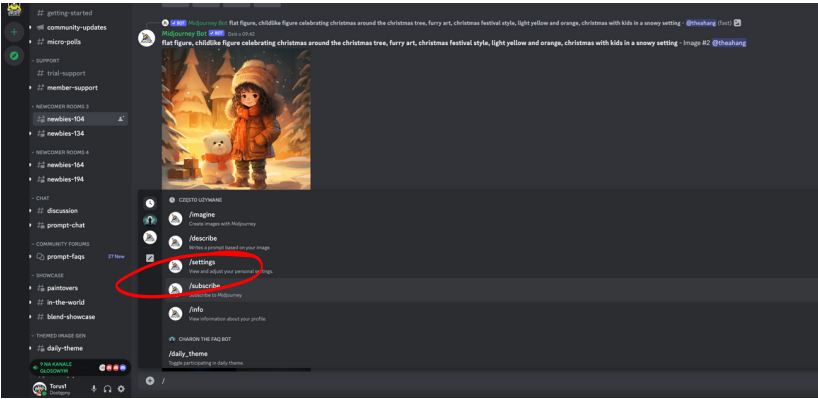

Step 9: If you find an image that you like and choose U to upscale it, you will be given a new set of options. You can choose to make variations on that image, Upscale to the max before you download, or choose a Light upscale redo if it's not quite what you wanted, among other options.

When finished, you can DM the image directly to yourself by selecting the Envelope emoji and adding it to your chat. That allows you to save and download the image whenever you want.

Subscribing to Midjourney.

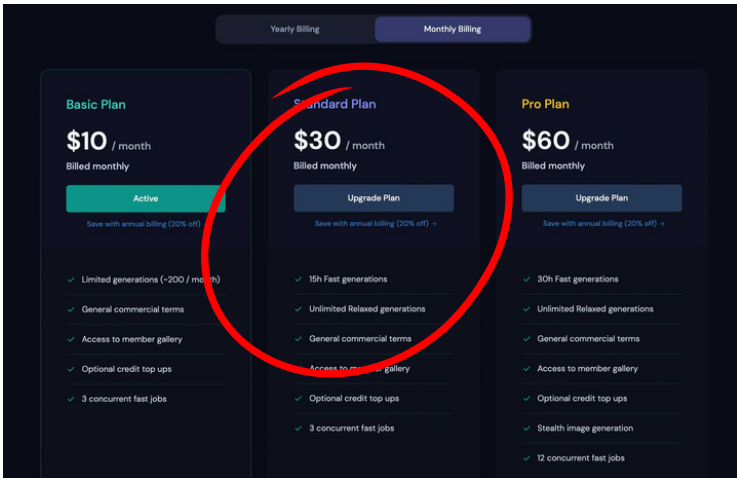

To commence your artwork creation, you need to subscribe to Midjourney. Here's a step-by-step guide with different wording:

1. At the lower part of the screen, you'll find a text field. Click within it and begin typing /subscribe. This will prompt the subscription window to appear, allowing you to choose one of Midjourney's paid plans.
2. Select "Subscribe to Midjourney" and confirm by pressing the Enter key on your keyboard.

The bot will guide you to the subscription page where you can select a plan that suits your requirements. There are three options available:

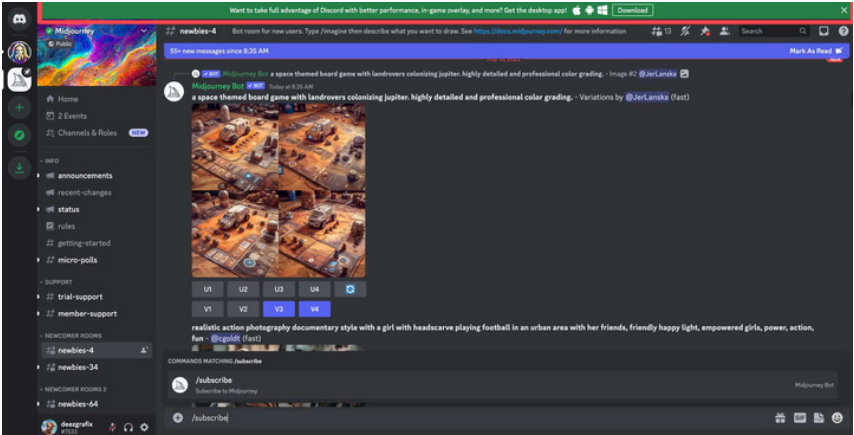

1. The Basic tier, priced at \$10 per month, includes 200 generations per month and grants access to a private chat room for image generation.
2. The Standard plan offers 15 hours of image generation, unlimited relaxed (slower) generations, and access to a private chat room for \$30 per month.
3. Finally, there's the Pro plan, which costs \$60 per month and provides 30 hours of rapid image generation, access to a free chatroom, and unlimited relaxed image generation for \$60 per month.

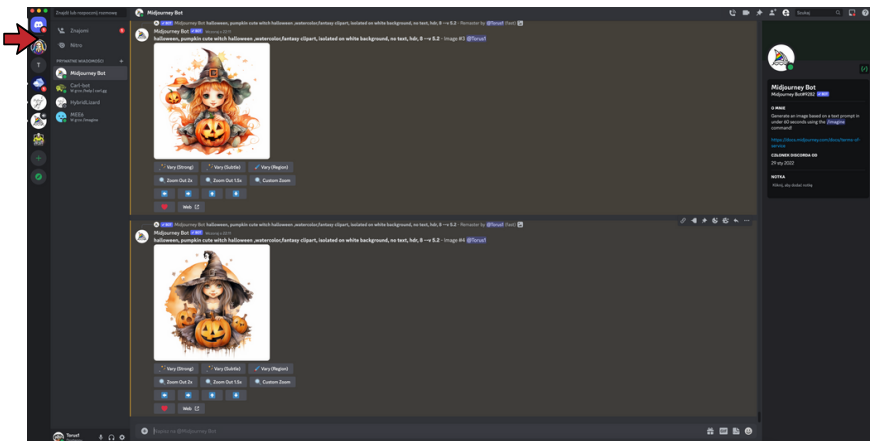

In my opinion, the Standard Plan is enough to enjoy an unlimited number of design creations. Even in the relaxed version, after 15 hours you can still create amazing designs, just a little slower.

When you're just getting started with Midjourney, things can get pretty busy. While it's a good idea to explore one of the newcomer rooms to get a sense of how things operate, it can be quite challenging to stay on top of things. The newbie rooms are often bustling with thousands of users, which can make it tricky to locate your generated images.

To enhance your experience, it's recommended to download and install the Discord application. This way, you can engage in private messaging with Midjourney, making it much simpler to view and modify your images. To get the app, simply click on the floating green bar at the top of your screen. Discord will automatically detect your operating system and suggest the appropriate app version for you.

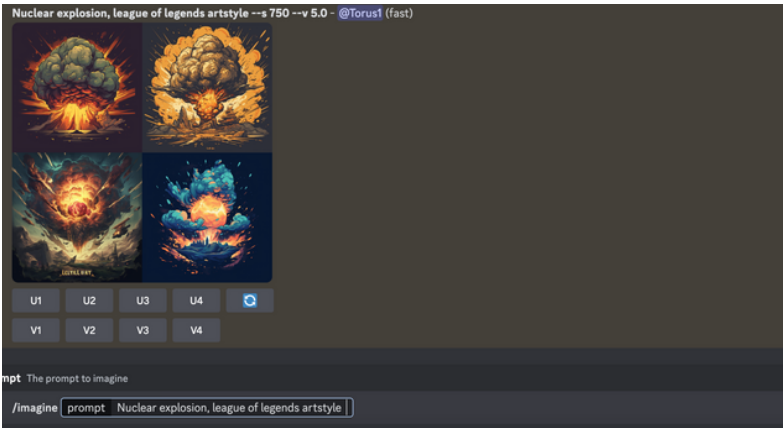

After installation, you can select the Discord icon located at the upper left corner of the application to enter your dedicated private chat room.

Utilizing private messaging offers a more tranquil interface, allowing you to create images and view them effortlessly within your exclusive chat space, free from the clutter of other users' visuals. Nevertheless, engaging in group rooms presents an excellent opportunity to gain inspiration and observe the prompts others employ to produce stunning images.

Crafting AI Art with Midjourney.

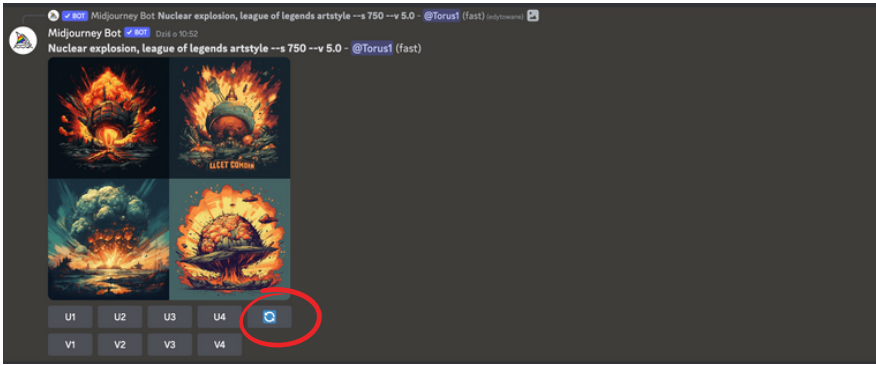

Before embarking on your journey to craft distinctive AI art, it's essential to acquaint yourself with some fundamental commands. First and foremost, every prompt should commence with a '/'. For instance, if you wish to generate a new image, you might enter a request like this: **'/ imagine ..Nuclear explosion, League of legends art style.'** Within a minute, your initial collection of images will materialize

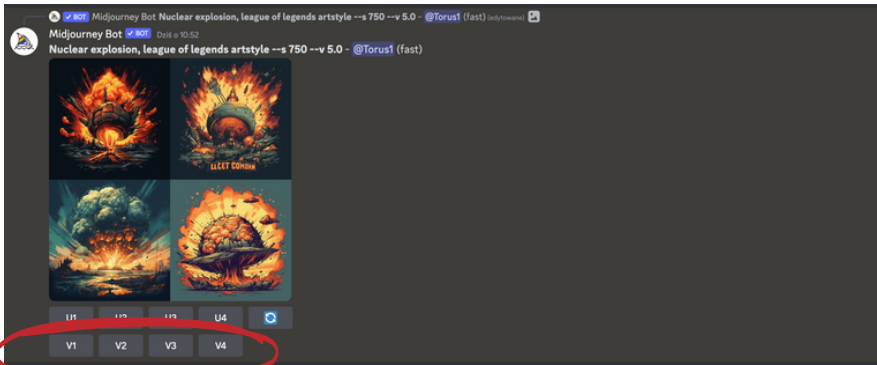

Upon the arrival of your initial batch of images, you'll observe a selection of buttons positioned below them. The upper row of buttons is designated for enhancing the resolution of one or more of the generated images. These buttons are labeled as U1 - U4, each corresponding to a specific image within the sequence. For instance, if you wish to increase the size of the second image, simply click on the U2 button located in the top row.

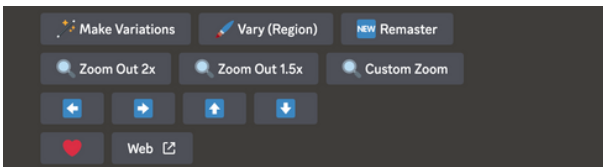

Located on the right-hand side of the initial row, you'll find the "regenerate" button. This serves as a valuable resource in case you find yourself less than content with the initial batch of images that Midjourney has generated for you. Simply click the "regenerate" button to request Midjourney to explore another concept based on your original prompt.

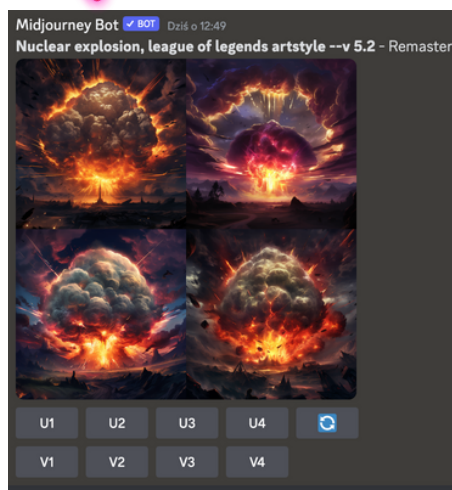

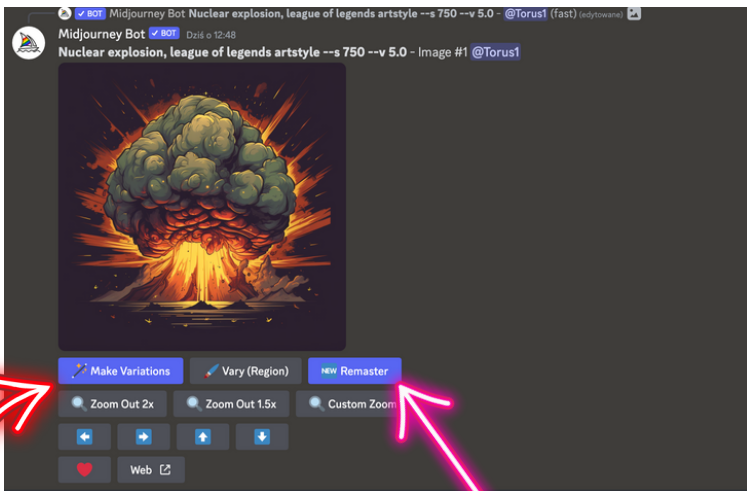

Lastly, the second row of buttons is dedicated to generating variations. These buttons are numbered V1 – V4, allowing you to select the button corresponding to the image for which you desire to generate variations. Once chosen, Midjourney will take that specific image and generate various versions of it.

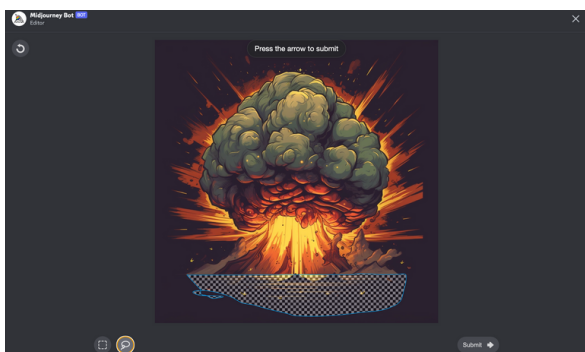

New Features in Midjourney 5.2

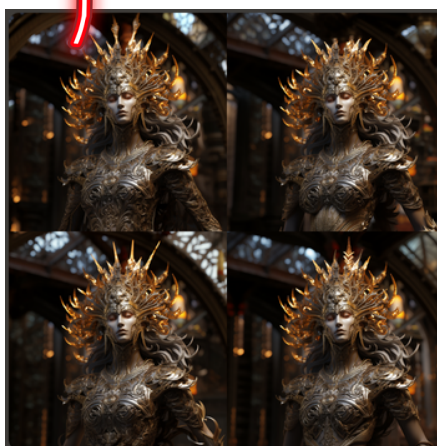

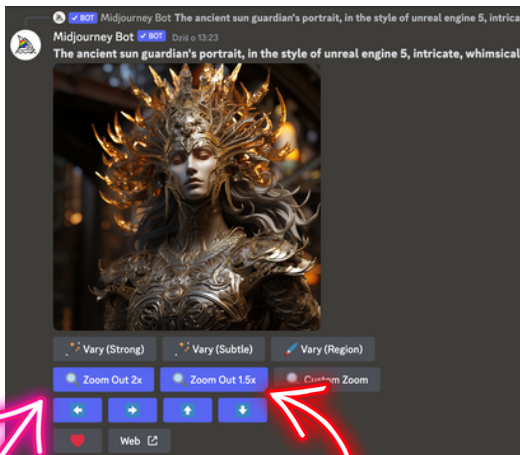

In the new Midjourney version, we have new options for processing the photo we choose. We can zoom out, remaster, remove elements we don't like in the photo, and move the main object in any direction.

Vary (Region)

in Option **Vary (Region)**,
You can select any part of the image to be changed

In the new version we can zoom out our image, There are 3 options to choose from

-Zoom out 1.5x ,Zoom out 2 x and Custom zoom.

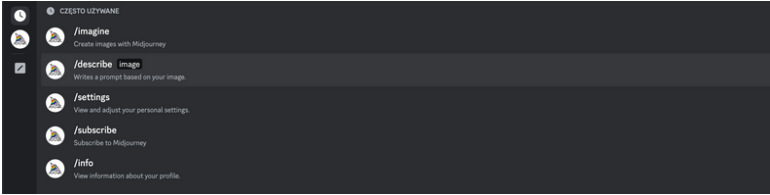

Arrows are used to move the main image element in a given direction.

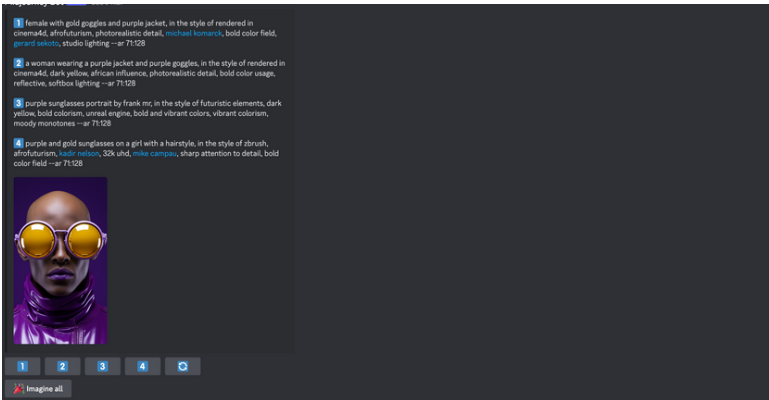

Tips & Tricks for Midjourney.

The Describe function

is used to create prompts from the photo that we sent to the server.

Enough that
You send a Design and choose the description
from the 4 options that best suits it.

This function .. is not super precise, but it gives you the opportunity to create prompts and reflect the atmosphere of a given image

Midjourney Aspect Ratio

Aspect ratio is the ratio of the width to the height of an image or screen. It determines how wide an image is compared to its height

The standard aspect ratio is square

--ar 1:1

*nothing needs to be added at the end here

--ar 16:9

Midjourney Bot [@midjourney](#)

Commonly used Midjourney Ratios, separated by a colon

There are several commonly used midjourney aspect ratios in different scenarios:

- --ar 1:1 - Default midjourney aspect ratio.
- --ar 3:2 - Common in print photography.
- --ar 4:3 - Commonly used for older televisions and computer monitors.
- --ar 5:4 - Common frame and print ratio.
- --ar 7:4 - Close to HD TV screens and smartphone screens.
- --ar 16:9 - Common for widescreen displays.
- --ar 9:16 - Vertical equivalent of 16:9 and is commonly used for portraits.

Crafting Endless Patterns. Perfectly Seamless.

To create seamless patterns it is important to make sure you have 5 versions or higher selected in your set

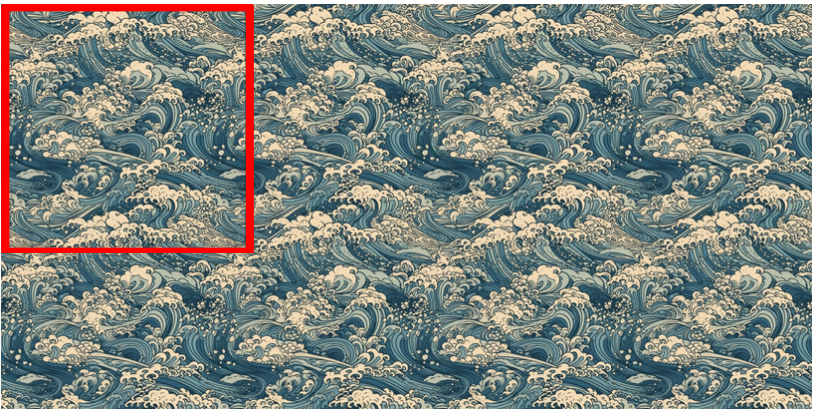

At the end of each prompt, add code:

--tile

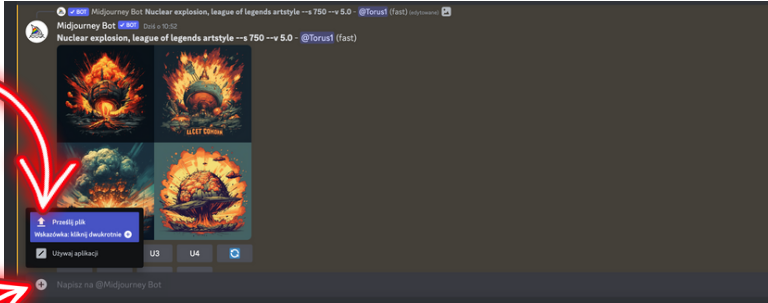

After choosing your favorite pattern..
you can create a seamless Design by copying the tiles next to each other.

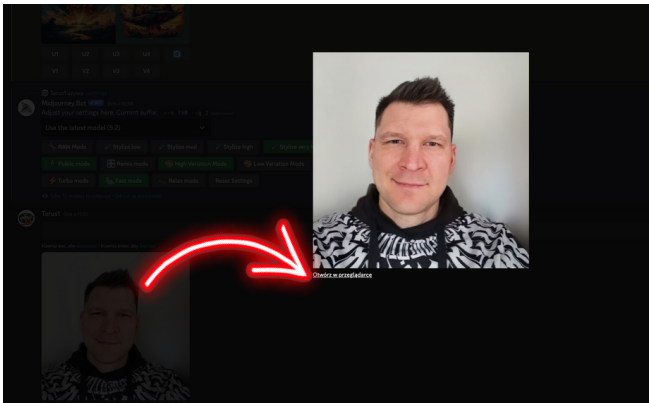

Making Use of Your Images.

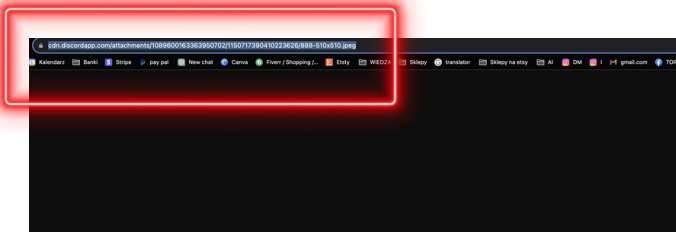

If you aspire to transform yourself into a member of the Royal family or perhaps don the persona of a captivating superhero, consider utilizing one of your own photographs with Midjourney. To achieve this, click the plus symbol adjacent to the text prompt box located at the bottom of your screen.

Once uploaded, click the image, then select open in browser. In the next step, you'll need to copy the image URL to use alongside /imagine.

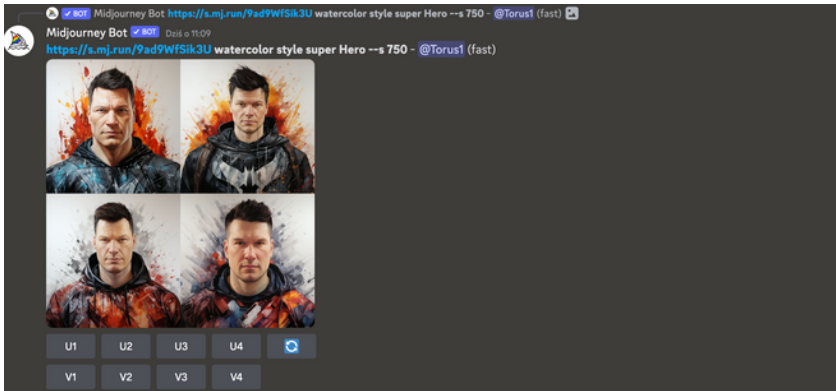

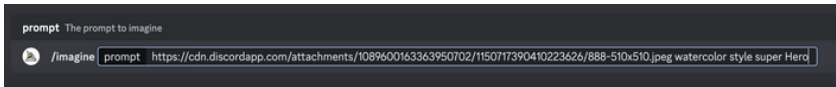

Click open in browser.

Copy link to your photo.

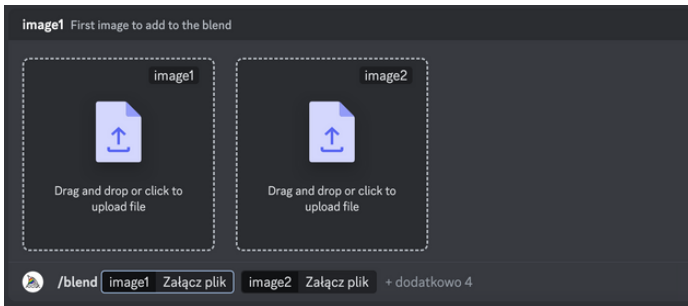

and paste it. in the image field .. along with the phrase you want to get

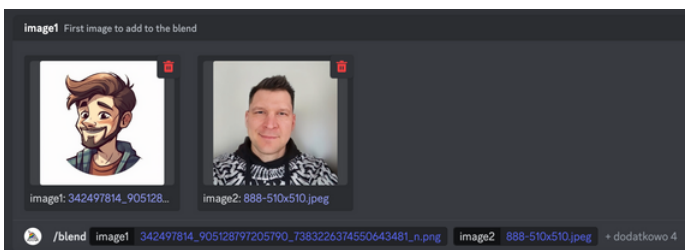

The results are never super accurate compared to the photo..
But when it looks quite nice.. especially if we do a lot of tests.

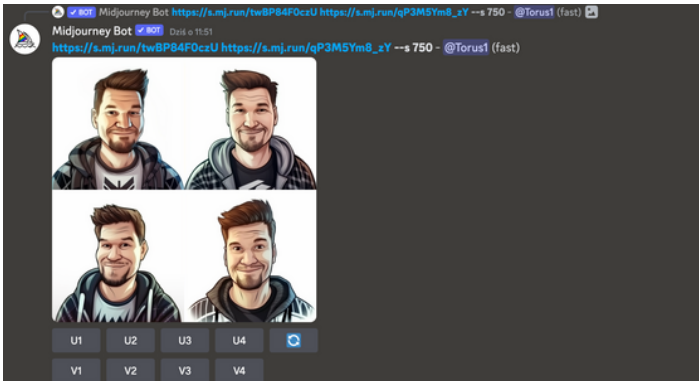

The Using Blending Effects

Try using the `/blend` command to create stunning effects.

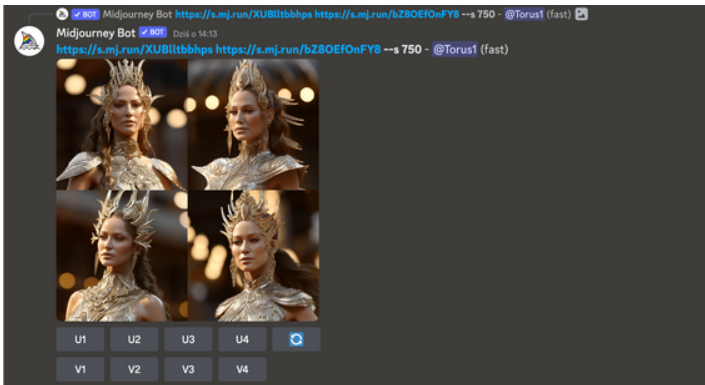

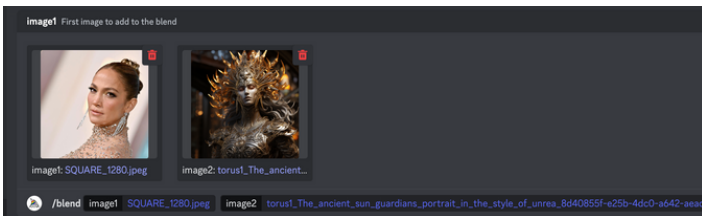

You can use 2 or more photos or designs here to get a mixed effect.

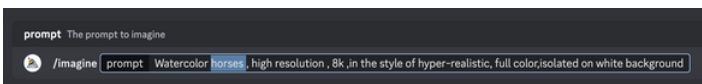

Next blend mode case.

Midjourney Prompts:

In the next chapter, we will focus on "midjourna" prompts, these are special phrases that we use to create photos. To use them, you need to copy the prompt to midjourne and sometimes replace the green part as needed

Watercolor Hiper-realistic Animals.

Midjourney Promt :

Watercolor horses , high resolution , 8k ,in the style of hyper-realistic, full color,isolated on white background

***You can change this GREEN phrase to suit you.**

***Business Use:**

Clip Art, Wall Art, Print on Demand, Brush Stamps for Etsy

Tattoo Japan Koi Carp.

Midjourney Prompt :

Carp Koi Tattoo design japan style , white and black, high quality ,white background, 3d style , perfect scales and shape

***You can change this GREEN phrase to suit you.**

***Business Use:
Creating Tattoo Stamp brushes, Clip Art,
Tattoo Books on Amazon KDP,

Comic Fight Scene, Super Man Style, Background Explosion,
Line Style, High Contrast, Marvel, Stan Lee, Black and White
design

*You can change this GREEN phrase to suit you.

*Business Use:
Creating Digital Coloring Pages on Etsy
or Books on Amazon KDP.

Neo-Pop Collages.

Midjourney Promt :

ink art **flowers**, in the style of neo-pop collages, humorous imagery, animated gifs, philippe halsman, solarizing master, yellow and gray, pop-culture-infused

***You can change this GREEN phrase to suit you.**

***Business Use:
Creating Digital Clip Arts Wall Art,
Print on Demand**

Abstract Brush Painting.

Midjourney Prompt :

a yellow and black square painting in an abstract style, in the style of political minimalism, Washington color school, minimalist forms, boldly black and white, harsh angles, hard edge painting, tagging-like marks, tagging-like marks

*You can change this GREEN phrase to suit you.

*Business Use:
Creating Digital Texture,
Wall Art.

City & Car Coloring Book.

Midjourney Promt :

On white background, for adult coloring book, black and white illustration of a classic car, vw karman ghia, in London street

*You can change this GREEN phrase to suit you.

*Business Use:
Digital Coloring Pages on Etsy
or Books on Amazon KDP.

Colorful Cartoon Girl On The Beach.

Midjourney Promt :

**cartoon girl sitting on the beach with skateboard stock
illustratórias, in the style of hyper-realistic, yellow and black,
bold colorism, 32k uhd, duy huynh, romanticized views,
exotic,gta style**

***You can change this GREEN phrase to suit you.**

***Business Use:
Digital Wall Art**

Neotraditional Devil Girl.

Midjourney Promt :

minimalistic neo traditional illustration, beautiful devil girl, like a logo, greyscale, white background

***You can change this GREEN phrase to suit you.**

***Business Use:
Creating Tattoo Stamp Brushes
Digital Coloring Pages on Etsy or Books on Amazon KDP .**

Planetary Abstract Art.

Midjourney Promt :

a planetary system with four planets in motion, in the style of lo-fi aesthetics, light teal and light red, Toonami, light crimson and yellow, steve ditko, piles/stacks, dan matutina

***You can change this GREEN phrase to suit you.**

***Business Use:
Creating Digital Texture, Wall Art.**

Cartoon Style, Coloring Page.

Midjourney Promt :

Minimalist coloring page ,no shading black and white, cute cartoon witch, making potions

***You can change this GREEN phrase to suit you.**

***Business Use:
Creating Digital Coloring Pages on Etsy
or Books on Amazon KDP.**

Colorful Letters.

Midjourney Promt :

Colorful letter "K" with abstract paper cut shapes or liquid paint. Paper cut style, on white background

***You can change this GREEN phrase to suit you.**

***Business Use:
Creating FONTS, PNG Alphabet
or Logo Design.**

Delicate Watercolor Flowers.

Midjourney Promt :

a painting of a white, **beige rose**, in the style of minimalist illustrator, delicate washes, romantic illustrations, subtle color palette, flower punk, inkblots, minimalist painter --style raw --v 5.1 --s 750

***You can change this GREEN phrase to suit you.**

***Business Use:
Creating Digital Clip Art, Wall Art, Print on Demand,
Stamp Brushes .**

Abstract Dripper Wood Canvas.

Midjourney Prompt :

abstract art painting in black on wood paneling, vertical strokes of black and white paint with a stiff brush, with thin gold leaf, weathered materials, aerial view, glitter golden

***You can change this GREEN phrase to suit you.**

***Business Use:
Creating Digital Texture, Wall Art**

Tattoo Shading Dot-work Desings.

Midjourney Promt :

Aquarius, Black and white design, dot work , Tattoo style, white background, high resolution, 8k

***You can change this GREEN phrase to suit you.**

***Business Use:
Creating Tattoo Stamp Brushes
Digital Coloring Pages on Etsy
or Books on Amazon KDP .**

Cartoon Ouveau-inspired Illustrations.

Midjourney Prompt :

a cartoon flying bug on a flower, in the style of art nouveau-inspired illustrations, detailed skies, chinapunk, illustrative storytelling, solarizing master, Quito school, visually poetic

*You can change this GREEN phrase to suit you.

*Business Use:
Clip Arts , Wall Art.

Cartoon Hip Hop Man.

Midjourney Prompt :

Cartoon of a front view of one guy dressed like hip - hop singer, posing in gangster style, white background

***You can change this GREEN phrase to suit you.**

***Business Use:
Clip Art, Print On Demand .**

Watercolor Flora Pattern.

Midjourney Promt :

drawings of colorful flowers and leaves on a pink background,
watercolor style, pastel color palette --ar 1:1 --tile --v 5

*You can change this GREEN phrase to suit you.

***Business Use:**
Creating Digital Seamless Patterns and Endless Brush Patterns.

Stickers .

Midjourney Prompt :

Hawaiian flower sticker design hyacinth, in the style of the color gradient, colorful animation stills, holographic, fluid shapes, linker core,white background

***You can change this GREEN phrase to suit you.**

***Business Use:
Clip Art , Stickers**

Mock-Up Tshirt.

Midjourney Promt :

**Bella Canvas 3001 Mockup White T shirt Mockup | Model
Mockup T Shirt | Boho Mockup, no subtitles**

***You can change this GREEN phrase to suit you.**

***Business Use:
Mock Up's**

Mock-Up Wear.

Midjourney Prompt :

looking to create a visual for a set of clean, logo-free. The products include a clean T-shirt, a hoodie, a snapback, bags, sports headbands, socks, and a sports shirt. All items should be in black color. We would like to request a design that meets the following requirements: The presentation of the products should be consistent across all items, with a unified theme or style. Each product should have a simple and clean appearance that highlights the quality and functionality of the item, without any logos or additional design elements. The products should be displayed on a white background, which complements the black color of the items. Please ensure that the visuals are versatile enough to be used across different platforms(e. g. , web, print, social media) and in various sizes. The main focus should be on presenting the products in an appealing manner, without incorporating any brand logos or elements.
